SUMMARY

Computer science student with experience in C++, SQL, OOP, DBMS, and Data Structure & Algorithms. Developed academic projects including reservation, mangement, and plaggiaism dectection systems. Seeking opportunities in software development and technology.

RELEVENT EXPERIENCE

Hospital Management System May 2026

- Implemented using the concepts of SQL such as JOIN, Sub-query, CTE and Data Normalization upto NF1, NF2 and NF3

Plagairism Detection using String Matching May 2026

- Implemented a Visualizer to show Automaton States.
- Detect specific keywords from a paragraph entered as input.

Flight Reservation System Dec 2025

- Developed as a part of Data Structure and Algorithms project.
- Implemented flight reservation for passengers, Ticket booking, finding nearest Airports and Route for Flights and flight scheduling.

College Admission & Record Management System Jan 2024

- Applied concept of Object-Oriented System using C++, such as inheritance, file handling, polymorphism, and data managemet.
- Designed feaues for student registration, record maintance, and merit generation.

EDUCATION

Bachelor of Computer Science 2024 - Present
Kinnaird College For Women Uiversity

Intermediate of Computer Science 2022 - 2024
Kinnaird College For Women Uiversity

TECHNICAL SKILLS

- **Programming Languages:** C++, SQL
- **Tools & technologies:** GitHub, AI- Assisted Development & Prompt Engineering, Microsoft Excel.

SOFT SKILLS

- Team Work
- Problem Solving
- Commuication

CERTIFICATIONS

- Google AI Essentials
- Canva Competetion
- Management Team.

ACITIVITES

- Registration Team
- Security Team
- Decor Team

LANGUAGES

- English
- Urdu
